Book is quite informative and was a great help in my project. If you want to learn how to sew the different curtains this is not the book for you but as the name suggests it gives you good and varied ideas on the different window treatments and how to measure your windows.

Exactly what I needed in great condition. Thanks.
The best how to on curtain, etc. you will find

Exciting may not be a word that 'non-decorators or seamstresses' may use, but that's exactly how I felt as I read this book.
