Customer Reviews

I would like to add to the other very thorough reviews. This book provides very practical information. I have had it for about two weeks and it's already helping! I have suffered from IBS for years and have quite a few materials on the subject. I think the most surprising thing that I learned so far is how my favorite "healthy" staples have been contributing to my symptoms. For example, some items for me are: apples, blackberries, whole wheat bread (gluten), broccoli, Greek yogurt, and agave to name a few! I can literally feel the difference.

The low FODMAP is great for person that suffer from Irritable Bowel Syndrome, I wish a little more information was given about the diet but I was impressed, nevertheless with the myriad of recipes ranging from breakfast recipes to desserts. My favorite recipes were the stews which turned out perfectly and were gentle on my stomach

Very interesting. I haven't tried the recipes yet, but plan on it in my new slow cooker.

It is organized and informative. I wish I had it sooner

Just got it but it's very informative.
