Customer Reviews

Reads like a methhead hand guide. I wanted to like this book, but, in my humble opinion, it was in no way a guide that a craftsperson would want to follow. Quick fixes without addressing fully real issues one might encounter in a vintage trailer. I hate to say this, but in fairness, it was cheap. I don't feel ripped off...just disappointed.

I was so excited to locate this book because I am in the process of restoring an old travel trailer. I think the book is a great reference tool for someone who already knows how to do home improvement projects but if you are new to the process there seems to be some gaps and unanswered questions (at least for me). I think the most valuable aspect is the identifying of specific products/brands to use. Also, as a dyslexic the spelling errors don't bother me but if you get upset with that kind of stuff don't download this book. :)

I am not impressed at all with this eBook, wish I could get my money back

Doesn't go in-depth enough to truly restore a vintage trailer i.e furnace, refrigerator, holding tank repairs.

You can have exactly the same material for free if one types in Google the title of the book in a website with the same title.
