Computer Concepts And Microsoft Office 2013: Illustrated
Synopsis

Everything you need for your Introduction to Computing course! COMPUTER CONCEPTS AND MICROSOFT OFFICE 2013 ILLUSTRATED delivers the most up-to-date computer concepts and Microsoft Office 2013 skills in an accessible, easy-to-follow format. The Illustrated Series has been praised by instructors for its concise, focused approach and user-friendly layout, which engages both computer rookies and hot shots in mastering application skills and computer concepts quickly and efficiently. Thanks to the Illustrated Series' hallmark 2-page layout, each task is presented in a single view, enabling students to work through an entire process without turning a page. New Learning Outcomes outline the skills covered in each lesson, and larger full-color screens represent exactly what students should see on their own computers. With COMPUTER CONCEPTS AND MICROSOFT OFFICE 2013 ILLUSTRATED, everything your students need is at their fingertips.

Customer Reviews

Unfortunately I had, apparently incorrectly, assumed that "new" meant it would come with the code to make an account online with SAM. The book itself was in great condition at least so it wasn't a total waste.

Most schools you have to purchase the access disc. The book is really not needed. If you have to purchase the access disc than it's cheaper to buy the disc and book together. Unfortunately this book is used and the disc that possibly came with it can't be used repeatedly.
was not what i needed at all and caused problems because i could not use it for school with out code or the other 9 i bought

I was charged 2 times for same period for rental. I sent email few couple days ago but why are they not responding?

I really need to send this book back for a refund! It was not AT ALL what my son needed for his college core course!!! I have had to end up getting the edition he needed from the school bookstore. His teacher told me he needed the key code, which did not come with the book I received, in order to get his school work accomplished! A huge waste of money!!!

The C.D is missing and the book did not meet my expectation.

Rented for class. Received as expected.

It was the right book however when i recieved it a few holes were off the spiral. It was in good condition though.
