I am new to Feng Shui and this book has been very helpful. My understanding of it has gotten deeper through this book. The author was really good at explaining things and making them clear to understand. One thing that made me love Feng Shui is that it is environmentally friendly. Aside from helping you, it also takes care of the surroundings which is a win-win situation. It has given me a fresh new perspective. My favorite part in the book is about decluttering and giving away stuffs you
won’t be needing. What a relief that would be. Knowing the right ways to do for positivity, I will be applying them to my life and share this to other people. This is now my go-to reference. Feng Shui can be practiced by anyone. I recommend this to someone who wants to attract positivity and also who is into Feng Shui.
