**Customer Reviews**

I am finding this to be difficult to read and follow on my kindle. The print copy is very small and when you increase the picture it is distorted. I would have preferred the actual book. I would be able to see the diagram and other educational pieces better. As the cost was the same.

When I received the book it looked as if water was poured onto the book. The cover and all pages are wrinkled. I was not pleased with the appearance of the book.
I had to have this book for a class I am taking. It works well for what it is designed for, and I like the wire binding, so it stays open to the pages I need.

Very in depth with tutorials and lots of questions answered! Invaluable resource for users of MS Office.

These books give great step by step instructions on most tasks within microsoft office 2013. I recommend

Amazing timing!great shape!A great person/persons to buy from .will have my business!

How did i end up ordering this crap...never did request or need this thing
